RE: Prior registration fees for CVR clients

Purpose:

In response to the CVR cyber incident, the MVA has made updates to the system to calculate June transactions using the fees prior to the July 1st changes.

Summary:

For dealers and tag and title agencies that had CVR as an ERT vendor during the month of June, the MVA will calculate any incoming ERT transactions that took place in June with the previous registration fees. The “dealer deliver date” and/or the “paperwork received date” must have a June date for the system to calculate the transaction with June fees.
