RE: Redistribution of Bay Plate Inventory

The MDOT MVA will be redesigning the Bay plate series. We will be halting production on the current design until the new design is unveiled.

The MDOT MVA warehouse will no longer be stocking the current Bay plate. If you need to order more inventory of current Bay plates, please contact your ERT vendor.

Thank you for your cooperation in helping the vendors to facilitate the transfer of overstocked locations to understocked locations until the new design is unveiled and ready for issuance.

If you have any questions or concerns, please contact us at (410) 787-2950 or email at mvablcsd@mva.maryland.gov.
