RE: Upgrade of Professional Specialty Licenses

In a continual effort to improve Maryland products, and to enhance the customer experience, the MDOT MVA has undergone a project to upgrade the professional specialty licenses.

We have redesigned the salesman license and the title representative license. Below are examples of the newly designed licenses which will go into effect on October 15, 2018.

The procedure for processing the license has *not* changed. The *appearance* of the license is the only change.

The old-style licenses are acceptable until the renewal period. The old-style licenses with varied colored backgrounds will be in circulation until 2021.

Vehicle Sales License

Title Service Representative License
