**FROM:** MARYLAND DEPARTMENT OF TRANSPORTATION MOTOR VEHICLE  
ADMINISTRATION (MDOT MVA)  
DRIVER INSTRUCTIONAL SERVICES DIVISION

**SUBJECT:** DRIVER'S EDUCATION UPDATED CURRICULUM DISK

**DATE:** FEBRUARY 8, 2019

The updated English Version of the Driver's Education Curriculum has been mailed out. The updates include the addition of captioning to videos, as well as minor edits to content, and you will notice that you receive two disks. One disk contains the PowerPoint Presentation, and the other disk contains the supporting materials. The edits made to the content will require a reprint of the Teaching Guide, and Final Exam materials. The Spanish Version of the disc will be provided to schools with instructors who are currently approved to teach the Spanish Version of the curriculum on request.

In addition, the MDOT MVA Driver Instructional Services Division believes that achieving excellence in Driver's Education is a collaborative effort. Therefore, we would like to take this opportunity to remind you of how you can make suggestions concerning the Driver's Education Curriculum.
