Law Enforcement Responding to at Risk Drivers

Sergeant Christopher Corea

Maryland State Police

Information Technology Division

Who has completed a Request for Re-examination?

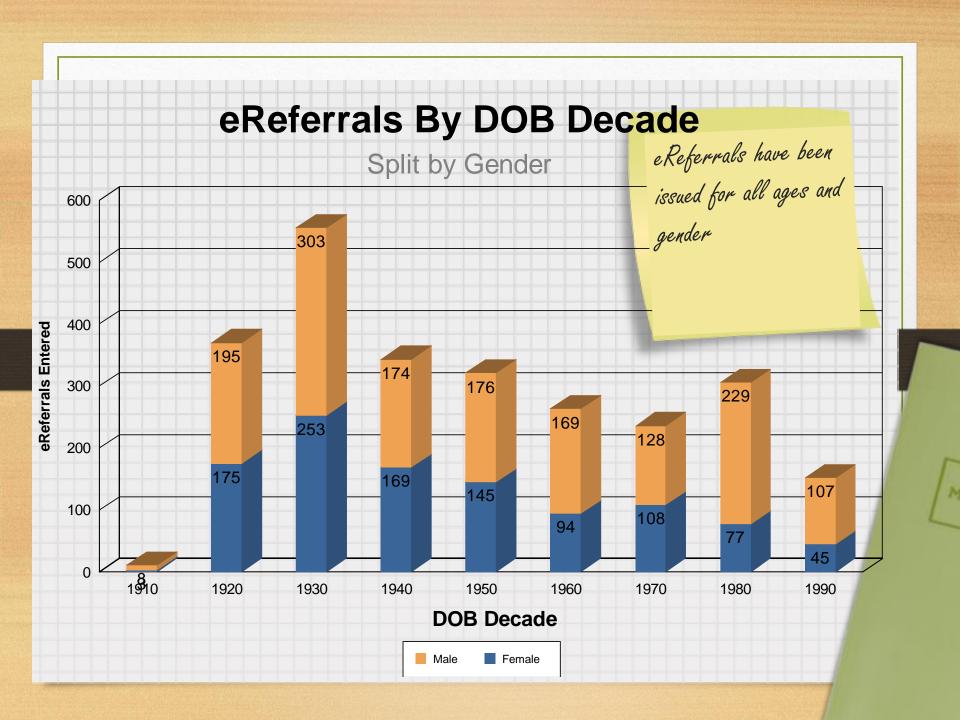

Motor Vehicle Administration began a campaign to increase awareness of older drivers and impaired drivers. One way to assist is an electronic driver re-examination form for Law Enforcement

- Decrease the time it takes to fill out a re-examination
- Increase the number of referrals per year
- Eliminate the commander signature
- Checkboxes for the indicators
- Pre-populate from E-TIX traffic stop data

eReferral

As a State we only
did about 500-600
Driver re-examinations
each year

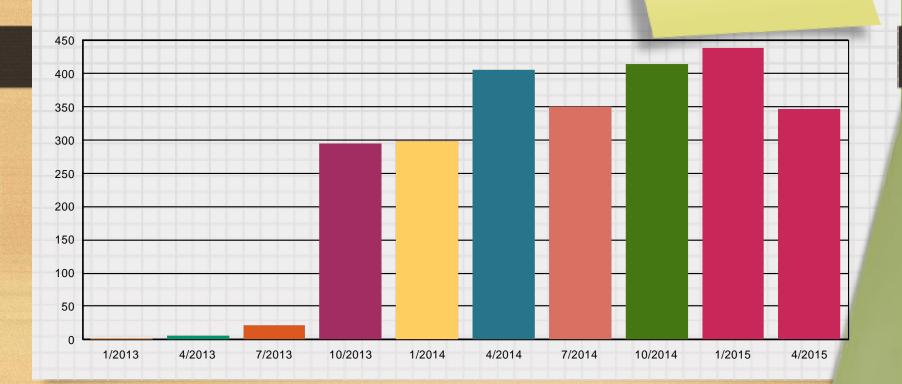

Motor Vehicle
Administration funded an electronic process for referrals

eReferrals Submitted per Quarter

eReferrals

Have increased by almost 300%

Searchable eReferrals assist in situational awareness

Moving Forward

- Improve the detection of a driver who needs to be referred
 - Officer training
 - Standardized line of questioning and testing
- Increase awareness of the referral system
 - Ensure officers are aware of the system
 - Promote the continued use of the system
